ACKNOWLEDGEMENT

Receipt is acknowledged of the Amendment filed July 10, 2009.

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Eric Highman on 9/16/2009 and 9/17/2009.

The application has been amended as follows:

Claim 1, added the following to the end of the claim --wherein said predetermined time-delay simulates a transmission delay as would be caused by a geostationary satellite--.

Claim 3, line 2, replaced the phrase "at least one user" with --the at least one user--.

Claim 8, added the following to the end of the claim --wherein said predetermined time-delay simulates a transmission delay as would be caused by a geostationary satellite--.

Claim 15, line 2, replaced the phrase "broadcasting means consist of the Internet" with --broadcaster is the Internet--.

Claims 18 and 19 are cancelled.

REASONS FOR ALLOWANCE

In light of the above examiner's amendment, claims 1-17 and 20 are allowable over the prior art of record.

The following is an examiner's statement of reasons for allowance: the prior art of record does not teach or fairly suggest a system or server for supplying augmentation data for satellite navigation user signals wherein the augmentation data is transmitted from a computer to a server and retransmitted from the server to the computer after a predetermined time delay relative to the reception of the data at the server and wherein the predetermined time-delay simulates a transmission delay as would be caused by a geostationary satellite.
